Historical Happenings

February 21 Washington, D.C. – **Washington Monument Completed**
On July 4,1848, the cornerstone of the world's tallest monument was laid with the same trowel George Washington used to lay the cornerstone of the Capital. Red tape and the Civil War interrupted construction. But after 36 years and an expenditure of 1.3 million, it was finally dedicated today. The monument stands 585 feet high. An elevator in its shaft will allow visitors a spectacular view of the city when it opens to the public in three years.

February 25 Congress prohibits barbed wire fencing of public lands in West.

March 4 **Grover Cleveland 22nd President.**
Grover Cleveland was inaugurated 22nd President, Thomas A Hendricks as Vice President.

June 19 Statue of Liberty arrives from France.

Washington, D.C. Veterinarian Daniel Elmer Salmon describes salmonella bacteria, believed to cause food poisoning.

Cambridge, Massachusetts – **Harvard cancels football for season**
Harvard University has decided the game of football is too dangerous for its own good and canceled this year's football season. Played on a 110-yard field, with no helmets or pads, the game rewards size and brute strength. Its bulky warriors are often referred to as "gorillas" on campus. Twice a week they play 45-minute halves with no rest. Players are only allowed off the field for injuries, and with only four substitutes, that excuse wears thin after a while. Linemen stand erect, toe to toe before entering into battle. To fill these positions, coaches generally look for sportsmen with plenty of boxing and wrestling experience.

Kingston, Ontario – **First hockey league started in Canada**
The popularity of ice hockey has led to the formation of a four-team league with diverse membership. Hockey has been gaining popularity in the United States and a 17-year-old student at St. Paul's School in Concord, New Hampshire, has written the first set of rules for the American teams

VALUES IN UNITED STATES MONEY

OF THE

PURE GOLD OR SILVER,

REPRESENTING RESPECTIVELY THE MONETARY UNITS AND STANDARD COINS OF FOREIGN COUNTRIES.

The first section of the Act of March 3, 1873, provides "that the value of Foreign Coin, as expressed in the money of account of the United States, shall be that of the pure metal of such coin of standard value," and that "the values of the standard coins in circulation of the various nations of the world shall be estimated annually by the Director of the Mint, and be proclaimed on the first day of January by the Secretary of the Treasury."

VALUE OF FOREIGN COINS.

The estimates of values contained in the following table are those made by the Director of the Mint, January 1st, 1884, in compliance with the above stated provisions of law.

NEW STANDARD TIME.

THE CALCULATIONS OF THIS ALMANAC ARE GIVEN, AS HERETOFORE, IN LOCAL MEAN TIME.

To change to the NEW STANDARD TIME apply a PLUS or MINUS correction, which is to be found by subtracting the adopted "Division" or "Standard" longitude of the place from its Greenwich longitude reduced to time.

For example: the "Division" longitude adopted for Boston is 75°, or 5 hours; which subtracted from its actual longitude of 71° 4′, or 4h. 44m., gives a correction of (− 3° 56′,) 16 minutes to be SUBTRACTED from the printed values for Boston.

Again: the "Division" longitude of Omaha is 6 hours, which subtracted from Omaha's longitude of 6h. 24m., leaves a correction of 24 minutes to be ADDED, in order to change to Omaha's standard.

GIANT SHOWS UNITED FOREVER

BARNUM RETURNS NO MORE.

Greeting and Farewell to his American Patrons.

With mingled regret and pride, I announce to my patrons that this is positively the last chance to see my GREATEST SHOW ON EARTH and the GREAT LONDON CIRCUS on American soil. I regret being forced to take away from my fellow citizens an exhibition which they have enthusiastically appreciated and lavishly patronized, but the amusement seeking people of Europe demand the opportunity of seeing this combination, which has a world-wide reputation and no counterpart in any country. I have made all arrangements and contracts for its transportation in its vast entirety across the Atlantic. My able and experienced partners, Messrs. James A. Bailey and James L. Hutchinson, will conduct this unparalleled enterprise under my personal supervision. The public's obedient servant.
